The Subcontractor hereby acknowledges and agrees that any delay in completion of the work may result in monetary damages to the Contractor for which the Subcontractor shall be responsible.
20. The Contractor and the Subcontractor expressly agree that no changes or alterations in the work, price or time, as provided in the Agreement, the Scope of Work or any other written agreement between the Contractor and the Subcontractor shall be made unless a written change order is mutually agreed upon and signed by the Contractor and the Subcontractor. SAFETY/CLEANLINESS POLICY

As PBC BUILDING CORPORATION strives to deliver high quality homes, we would like to inform you of three initiatives that we have created. These initiatives are designed to deliver the highest quality work environment for our Subcontractors and homeowners alike.

1. Jobsites start out as clean building lots that grow into houses under construction to homes for our clients. It is OUR responsibility to keep them clean throughout the process. Going forward, if a PBC employee finds trash, food, drink containers or an unclean/unorganized work area on site, there will be a back-charge of \$200 per incident. If you show up and in your opinion the site looks to be in poor condition, we ask that you clean the area and inform a PBC employee. Lack of doing so will also result in a fine to your company.

2. As we strive to keep everyone safe, we have chosen to create a fine policy, related only to fall protection and electrical dangers. Please consult your safety plan to find out what items will pertain to your trade. We specifically will not tolerate:
 - a. anyone not using fall protection (correctly) over the height of six feet high/ten feet on scaffolding.
 - b. any misused or poorly maintained electrical cords or devices.If any PBC employee sees a violation, there will be a \$500 back-charge per incident.
3. Our jobsites are smoke free environments. Absolutely no smoking is allowed. This includes on site, in the home or on any adjacent property to our home sites. Any violation of this will result in a fine of \$200. Remember if there are cigarette butts on the site as you arrive please dispose of them and inform a PBC employee. If not, this will be assumed to be yours if discovered at a later time.

In each of the above situations we will take a photo of the incident and make an effort to reach you with the picture immediately via email or text. We will keep this on file at the office as well. The back-charge will be removed from your next pay deposit.

Thank you for your help trying to provide everyone with a quality work environment.

OSHA SAFETY INSPECTION AND REQUIREMENTS

PBC BUILDING CORPORATION desire is to operate each project in a safety conscious and professional manner. This includes operating within the standards and requirements set forth by OSHA. Our main focus is the safety of our employees, clients, yourself and your employees. The last thing that we want is for anyone to get hurt on any of our projects.

As a professional in the construction industry, it is your responsibility to be knowledgeable of the OSHA requirements and guidelines that pertain to your trade. In addition, you need to be sure that your workers are following these guidelines. This will only be accomplished through training and education on your part.

We have directed our employees to enforce the OSHA requirements on their projects and to adhere to them themselves.

If you are unsure of the requirements that relate directly to your trade, please feel free to contact our local OSHA office as they offer consultations tailored to your specific needs.

The following equipment is required by our safety program and needs to be with your crews at all times:

- Hardhats for each worker
- Hard sole shoes on each worker
- Safety glasses
- First aid kit

- Drinking water with disposable cups
- Fire extinguisher (ABC-5 lb. minimum)
- MSDS sheets relating to any products that you handle
- Fall protection equipment (in good working condition)
- Proper and safe electrical cords and equipment
- Respirators as may be required in your trade

Remember, OSHA standards and requirements are a mandate, not a suggestion. It is the LAW.
